## Lockout/Tagout: Controlling Hazardous Energy and Your Company Program

1:30 p.m. -2:30 p.m.  
5.14.2020

This webinar will examine best practices surrounding the control of hazardous energy and how they may apply to your workplace. Topics of discussion will include machine specific energy control procedures, minor servicing considerations, energy source evaluation, and employee training. This session will also provide instruction regarding requirements for energy isolation devices, group lockout requirements and program development.

- This webinar does not offer credits.
- When your registration is complete, you will receive a confirmation email with instructions for joining the webinar. You can click the link at any time and go to the log-in page. Towards the bottom of that page is where you will find any course materials in advance of the May 14 webinar at 1:30pm
