She received a Bachelor's Degree in Business Management from Malone College and a degree in Environmental, Health & Safety Management from Kent State University. Ms. Ghezzi is recognized as an OSHA General Industry and Construction Outreach Trainer. She received her CSP designation in 2007. Ms. Ghezzi is currently an Industrial Hygienist at the BWC Division of Safety and Hygiene.

Avoiding Hazard Communication Program Mistakes

11:00 a.m. - 12:00 p.m.
9.15.2020

Regardless of size, employers are required to follow the OSHA Hazard Communication Standard 1910.1200, if their employees work with hazardous chemicals. This webinar will cover the required components of a hazard communication program. If you are new to hazard communication, this presentation will help you develop your program. If you have an existing hazard communication program, this presentation will help you to audit it for compliance.

- This webinar does not offer credit.
- When your registration is complete, you will receive a confirmation email with instructions for joining the webinar. You can click the link at any time and go to the log-in page.
